

NetDay Cyber Security Kit for Schools

Additional Web Resources on Cyber Security

Introduction: The web sites listed below provide additional information about cyber security and online safety for schools and families. All sites have been reviewed by NetDay's editorial team and are part of NetDay's award-winning web site, www.NetDayCompass.org.

Network Security in Schools

Safeguarding Your Technology

This guide has been developed specifically for educational administrators at the building, campus, district, system, and state levels (e.g., school principals, district superintendents, state chiefs, college deans, and their assistants). It is meant to serve as a framework to help them better understand why, and how, to effectively secure their organization's information, software, and computer and networking equipment.

The Cybercitizen Partnership

The Cybercitizen Awareness Program educates children and young adults on the dangers and consequences of cyber crime. By reaching out to parents and teachers, the program is designed to establish a broad sense of responsibility and community in an effort to develop in young people smart, ethical, and socially conscious online behavior.

Safety Ed International: Internet Safety Education

This web site offers programs, resources and information related to Internet safety education for children. It is intended to help librarians, parents, teachers, teens, and kids enjoy cyberspace safely. This non-profit organization is run by volunteers with experience in Internet safety education and child advocacy.

Curriculum Resources

CyberSmart - K-8 Cyber Security Curriculum

The CyberSmart! Curriculum, consisting of 65 original standards-based lesson plans with Activity Sheets, teaches the basic tenets of Internet use to children in K-8 grades. The goal of the CyberSmart program is to empower children to take full advantage of the rich content and communication capabilities of the Internet.

ISAFE- Internet Safety Education Program

I-Safe America's Internet Safety Education Program draws together law enforcement, educators, parents, and the community to provide a proactive, dynamic learning environment for kids in grades K-12. The program develops necessary critical-thinking skills, enabling students to assess risks within the cyber environment. The curriculum is designed to guide educators in the important task of teaching Internet Safety.
